

## **CORPORATE TEAM BUILDING**

A fun and unique team bonding experience.

At Our Big Kitchen Los Angeles (OBKLA), we believe in the power of the kitchen to bring people together and create lasting positive change in our world.

We believe in the power of food – to build connections within and across communities, to provide nutrition and dignity to those in need, and provide meaning for those who want to make a difference.

Many companies are reshuffling their agendas to place more emphasis on Corporate Social Responsibility. This is a great approach to sustainable development, bringing with it economic, social and environmental benefits for all stakeholders.

OBKLA offers organizations a practical way to get their teams involved in volunteering and helping those in need. We create a spirit of giving and selflessness that encourages and empowers change in a powerful and positive way. Through cooking and packaging meals, your team will take part in a meaningful, hands-on experience. You will hear inspiring stories about those benefiting from the meals you'll make, giving you a feeling of humility and fulfillment that can be hard to come by.

### **OUR CORPORATE PROGRAMS EMPOWER INDIVIDUALS TO:**

- Reconnect and interact with team members in a meaningful and memorable way.
- Make a tangible difference by giving back to the community together. ● Engage with the wider community and connect with people of a variety of backgrounds.
- Reconnect with values such as kindness, empathy and compassion.
- Learn new skills and have fun.
- Assist in fulfilling their organization's commitment to social responsibilities. ● See the value of their volunteering by getting a taster of what they've prepared for those in need.

## **HOW CORPORATE PROGRAMS SUPPORT US:**

By cooking with large numbers of volunteers - and even smaller groups - we are able to make more meals and support people in need. **Last year OBKLA made over 27,000 meals** which were distributed to families and individuals suffering from food insecurity. Without organizations coming in and volunteering their time such a figure would not have been achieved. Our belief is that through giving we empower and connect people. We hope to build a larger community of givers and, by having more organizations participate, we hope to spread this giving belief.

Running a large commercial kitchen and a charity does have costs. By having these corporate programs it contributes to OBK's running costs. These programs are how we hope to stay sustainable as a charity and continue to grow.

## **DETAILS ABOUT THE PROGRAM:**

**Duration:** 2 Hours
